## Linear motor axis LMSSA

### 3. Linear motor axis LMSSA

#### 3.1 Properties of the LMSSA linear motor axes

LMSSA linear motor axes are a cost-effective variant of this product group. The cost advantage is achieved by a consistent reduction to the essentials and a limitation of the options and variants available as standard. This allows manufacturing costs to be significantly reduced, while the LMSSA axes simultaneously offer all the advantages of a conventional linear motor axis.

- Short delivery time
- Max. acceleration 50 m/s<sup>2</sup>
- Max. velocity 5 m/s
- Up to 3,000 mm long

#### Linear guideway

A high quality HIWIN double guide transfers forces and torques reliably from the carriage into the axis profile. Each carriage comes with four blocks that are guided over two parallel high precision rails. The SynchMotion™ technology with ball chain also ensures a high level of synchronism and quiet running for all sizes.

#### Electrical interface

Motor and encoder cables are routed out directly on the traversing carriage in a cost-optimized manner and are supplied with open cable ends. The limit switch cables are also led out with open cable ends at the front of the axis.

#### Distance measuring systems

The distance measuring system, that is integrated into the interior of the axis in order to save space, determines the repeatability. Various measuring systems are available, depending on the requirements for measuring method, interface and resolution.

#### Colour

In addition to the standard grey version (anodized aluminium), the linear motor axis is also available in a black version.

#### Linear motor

The integrated HIWIN linear motors ensure dynamic and precise positioning. The iron-core LMSA motors are the first choice when high feed forces are required, the ironless motors are the first choice for applications with the highest synchronization requirements.

#### Cover

The steel cover strip protects the inside of the axis against dust and dirt.

## 3.2 Order code for LMSSA linear motor axes

LM	SSA	18	S	100	1	800	G	5.3	A	S	S	B
Linear motor axis												Max. Voltage:
Series												A: 330 VDC <sup>4)</sup> B: 600 VDC <sup>5)</sup>
Size / profile width:												Colour: S: Aluminium colour <sup>1)</sup> B: Black
08: 80												Cover: S: Standard cover
10: 100												Limit switch: A: NPN (Opener) B: PNP (Opener)
13: 135												Cable length: 5.3: Power 5 m / Encoder: 3 m
18: 185												
20: 206												
Motor type:												
S: LMSA motor (iron-core)												
C: LMC motor (ironless) <sup>1)</sup>												
Rated force level [N]: <sup>2)</sup>												
50, 100, 200, 300, 500, 700												
Number of forcers:												
1: Single forcer												
2: Duals forcers												
Stroke length [mm]: <sup>3)</sup>												
100 – 1,300 mm (in 50 mm increments)												
1,400 – 2,700 mm (in 100 mm increments)												
Distance measuring system:												
A: Optical, analogue, 1 V <sub>PP</sub> sin/cos												
D: Magnetic, analogue, 1 V <sub>PP</sub> sin/cos												
E: Magnetic, digital TTL, resolution 1 µm												
G: Optical, digital TTL, resolution 1 µm												
K: Optical, digital TTL, resolution 0.1 µm												
P: Absolute optical encoder (BiSS C) <sup>1)</sup>												

<sup>1)</sup> Available for size (profile width) 18 and 20.

<sup>2)</sup> Rated force depends on motor type. Detailed information from Table 3.1 on page 19.

<sup>3)</sup> Max. stroke length depends on size (profile width). Detailed information from Table 3.4 on page 22.

<sup>4)</sup> Max. voltage depends on motor type. LMC (ironless) with max. voltage A: 330 VDC

<sup>5)</sup> Max. voltage depends on motor type. LMSA (iron-core) with max. voltage B: 600 VDC

## LMSSA-20 dimensions, dual force

LMSSA-20S700, stroke length 940 – 1,840 mm

1) Stopping buffer position

2) Limit switch position

All values in mm

Table 3.66 LMSSA-20S700 dimensions, dual force, stroke length 940 – 1,840 mm

Stroke length ST [mm]	940	990	1,040	1,090	1,140	1,190	1,240	1,290	1,340	1,440	1,540	1,640	1,740	1,840
